PROJECTS

Sentinel | *Next.js, Tailwind CSS, MongoDB* | GitHub Repository | Live Link

- Built an AI-assisted student dropout prediction platform that flags at-risk students from attendance and LMS participation data, with a weekly attendance trajectory chart tracked against the 75% minimum.
- Designed a rule-based risk engine that generates per-student implementation plans, with AI-written (Groq) risk narratives for counselors.

SwasthyaSetu | *Next.js,, Tailwind CSS, MongoDB* | GitHub Repository | Live Link

- Built an AI-powered rural healthcare platform using AI-assisted tools, featuring role-based dashboards (ASHA/Doctor) and a multi-lingual NLP engine for symptom parsing and automated smart triage.
- Implemented a patient escalation system that dynamically evaluates risk levels based on symptoms and automatically routes critical cases to a primary physician's clinical dashboard.

LeetCode Tracker Extension | *JavaScript, Chrome Extension* | GitHub Repository

- A lightweight Chrome extension that automatically tracks your LeetCode solve time and difficulty breakdown, and shows which companies ask which questions!

OTHER SKILLS

- **Motion Graphics & Video Editing:** Adobe After Effects, video editing, color grading, audio editing, text animations and visual storytelling.

EXTRACURRICULAR

- **Finalist (Top 30), Hack 2 Ignite 2026-27** (GH Raisoni International Skill Tech University, Pune): built and presented Sentinel in the on-campus grand finale.
- **Technical Team Member, Akatsuki Coding Club**,: created video edits for club events and promotions.
- **German Language (A1)**: cleared college-level certification exam.
